

Telligen Transplant Management Program

POSITIVE MEDICAL OUTCOMES

More than 115,000 men, women and children are awaiting organ transplants in the United States¹. Telligen understands that having steerage to Centers of Excellence makes a huge difference in clinical and financial outcomes.

Telligen's Case Manager coordinates medical services pre- and post-transplant plus provides education and assistance to empower the member in the participation of their own treatment and member plan. The case manager is an important resource to the client to help understand the protocols, transplant process and care needs to facilitate maximum plan benefits.
